

# Responsible AI @ Top speed

at the Dutch National Police

*April 22th, 2025*

**Dutch National Police**

Martijn van Andel (Product owner HAAI - MLOps)

# 1

## The challenge

**Trust of citizens**

**Police effectiveness**

# We expect AI to be used everywhere

**1st**

Mechanisation,  
Steam and  
Water Power

**2nd**

Mass  
production,  
Assembly lines,  
electricity

**3rd**

Computer &  
Automation

**4th**

Cyber Physical  
Systems,  
networks, AI

Geo analysis

Cybercrime

Risk assessment

Edge applications

Real-time intelligence

Investigations

Security operations

Business operation

Too many cameras to analyse manually  
Risk of incidents that go undetected

The surveillance center wants to work **based on triggers**

Slimme verkeerscamera's

## Tim krabde aan hoofd, maar kreeg boete van 380 euro voor bellen achter het stuur

Door RTL Nieuws · 21 februari 2024 · Aangepast: 21 februari 2024

© Flitsfoto van Tim

RTL Nieuws

Hij heeft de boete niet hoeven betalen, en zijn blog lees je hier:

***Are WE prepared to handle the  
consequences of YOUR  
(unconsciously) accepted***

***Error margins***

**?**

# 2

## Confronting the dilemma

**Ethics**

**AI-literacy**

***HAI***  ***I***  
**enablement**

**Governance**  
(incl. law)

**AI-services**

# Low entry level

# High operational standards

*AI literacy programs*

**Technical tests**

*on production level service*

**Operational pilot**

*on production level service*

**Production**

*...on that same service*

*Straight forward governance*

Open to anyone

**Reduced risk by:**

- Logging and authentication as a service
  - Preliminary model evaluation
- No use in daily operations
- Usage limits

Tests with the business and operational data

**Requires:**

- Specific risk assessment
- Formal projects

Continuous use

**Requires:**

- Continuous monitoring
- Formal ownership
- SLA's

# 3

## **Key take aways** *of 1 year AI enablement*

***This is not a  
technical product implementation challenge***

**AI implementation is about  
effective processes, knowledge  
and transparency**

# and Risk management
