ZO DOE JE DAT

## Welcome at NBC

We are delighted to welcome you soon as a guest at NBC. In our family business, we create unique event experiences with our passionate and committed team and our full-service concept. With this fact sheet, we would like to inform you about a number of practical matters. After all, a good start is half the work.

### Contact information

Blokhoeve 1  
3438 LC Nieuwegein  
The Netherlands  
T: +31 (0)30 – 602 69 00  
E: [info@nbccongrescentrum.nl](mailto:info@nbccongrescentrum.nl)  
W: [www.nbccongrescentrum.nl](http://www.nbccongrescentrum.nl)

### Reception

Upon entering, please check in with one of our hosts. They will direct you to the right room. In addition, the meeting will also be indicated on the screens.

### Wi-Fi

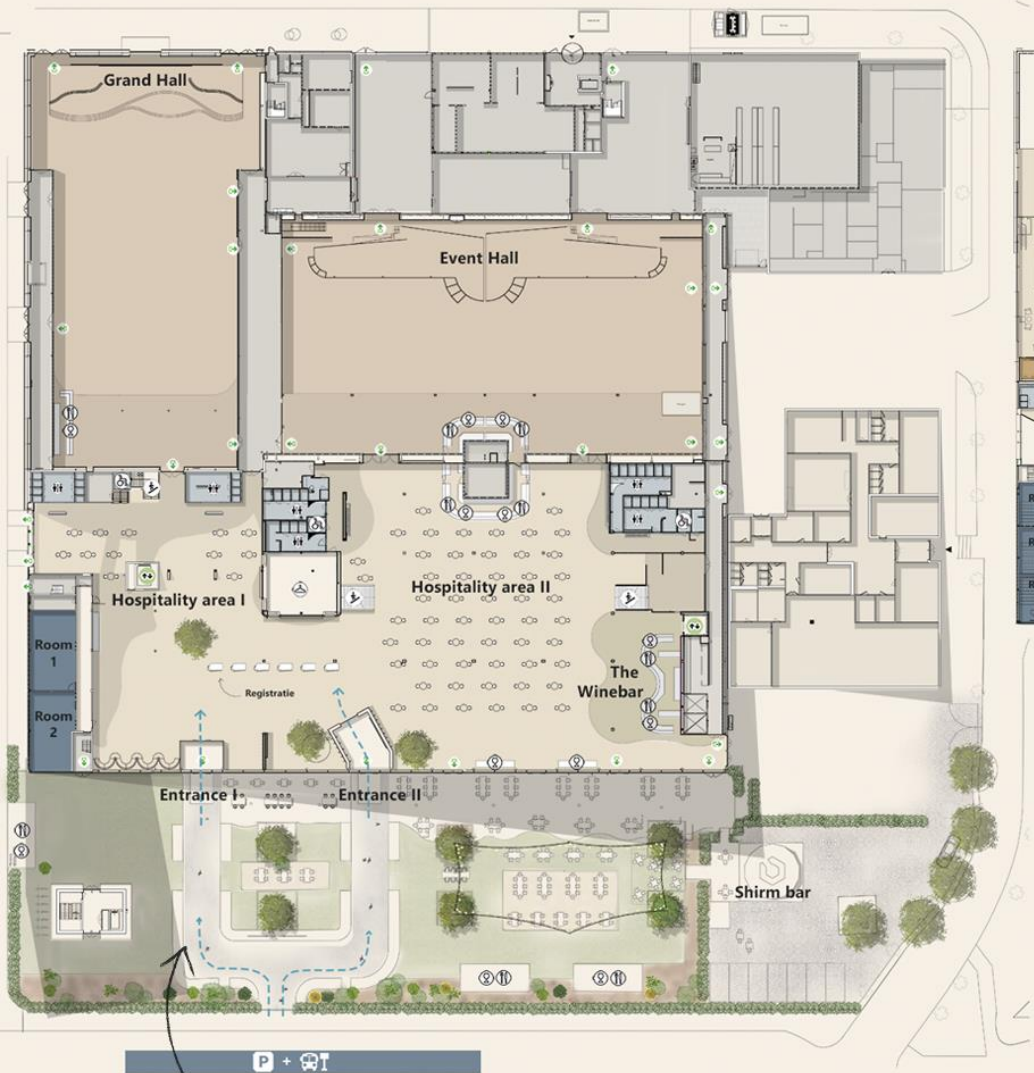

Our sustainable building is well insulated, so be sure to take advantage of our free Wi-Fi network. With that, you can get started right away. Select the network "NBC-Free" and you can connect without a password.

### A touch of magic...

With a beautifully decorated venue, delicious coffee, all the necessary services and a super enthusiastic team, we provide the NBC magic.

  - Catering
  - Bar
  - Toilets
  - Changing room
  - Outdoor
  - Phone booth

# NBC facts & figures

💡 *Sustainability tip: opt for sustainable travel and reduce CO2 emissions by using public transport or carpooling with colleagues.*

## Accessibility by public transport

From Utrecht Centraal/Jaarbeursplein, take the express tram to Nieuwegein - Zuid or IJsselstein. It departs every seven minutes. After about 15 minutes, get off at the Zuilenstein stop. You immediately cross the road and follow the road between the NBC and the Beursfabriek. Green Village is at the end of the road.

[Plan your trip via 9292.nl](https://9292.nl).

## Accessibility by car

Our location is easily accessible via the A2, A12 and A27 motorways. Parking is always free with us and there are as many as 1,300 parking spaces in the surrounding area. There are 27 charging stations at the beginning of Blokhoeve.

[Plan your journey via Google Maps](https://www.google.nl/maps) so that it contains the most up-to-date traffic information.

## Accessibility

NBC is accessible to disabled people. For example, all our rooms have no thresholds and there are no narrow passages. Next to that; all floors are accessible by elevator.

## Stay overnight

Do you have a multi-day meeting or do you live far away from the NBC? Then you can stay overnight at the nearby [Fletcher Hotel](#) in Nieuwegein or at [Hotel van der Valk Utrecht](#).

## Hospitality team

During the meeting, the NBC hospitality team will be there for you. Our team will take care of break times (if any) and will be ready to answer any questions.

## Bring your water bottle

You can easily fill your reusable water bottle with us at one of our many water taps. In this way, together, we are ensuring that fewer plastic bottles are used.

### Fostering biodiversity

Our garden is not only a nice place to enjoy the sun, but is also a haven for local wildlife. In our garden, we have implemented several measures to encourage biodiversity and offset CO2 emissions. These include insect hotels, bat boxes and special flowers and plants.

### Water-saving faucets

With our water-saving faucets and toilets, we save as much as 1 million liters of water per year. That is equivalent to the amount of water needed to fill about 4,000 bathtubs.

### LED-lighting and en -displays

Our entire location is equipped with durable LED lighting and displays. LED uses significantly less energy and also has a longer lifespan than traditional lighting or displays.

## Sustainability at NBC

As a family business, we want to make every meeting special by continuing to innovate sustainably and investing in our people, location, technology and services. Sustainability is therefore a central theme at our location. We believe that as an event location, we should take the lead in this.

The construction of our completely renovated location has also given us the opportunity to create a location of the future. For example, our venue has been built super sustainable and circular and we have developed various sustainability initiatives. From stimulating biodiversity to water-saving taps and much more.
